St Aloysius Deemed to be University, Mangalore

- **Registration Coordinator, IT Fest 2025 (Composite)**: Managed **1,500+ registrations** for a **national-level IT fest**, ensuring accurate data handling, smooth participant onboarding, and zero registration issues throughout the event lifecycle.
- **Head of IT Fest, Composite (2024 & 2025)**: Served as **Certificate Head** for two consecutive years, overseeing certificate planning, validation, and distribution for participants and winners across multiple technical events.
- **Hospitality Head (In Process), CodeSprint National-Level Hackathon 2026 :**Currently leading **hospitality operations** for a national-level hackathon, coordinating participant accommodation, logistics, and on-ground support to ensure a seamless event experience.
- **Elected President / Head, Computer Animation Association (2024)**: Elected student leader managing **200+ association members**, responsible for planning events, coordinating teams, and representing the association in academic and administrative discussions.
- **Registration & Certification Coordinator, Hindi Diwas (2024 & 2025)**: Handled **participant registrations and certification processes** for consecutive years, ensuring organized documentation and timely certificate distribution for university-level events.
- **Deputy Secretary, Student Placement Council (2026)**:Supporting placement-related activities by assisting in **student coordination, data management, communication workflows, and event execution** under the Placement Department.

PROJECTS

AI-Powered Medical Symptom Assessment Web Application
Tech Stack: React, Node.js, AI APIs, JavaScript
Built an **AI-driven medical support application** that analyzes user-entered symptoms to provide **probable condition insights, precautions, and guidance on seeking medical care,** with **responsible AI design, safety disclaimers, and ethical data handling.**

Blood Donation Management System (Web Application)
Tech Stack: React, Node.js, Supabase, SQL, REST APIs
Developed a **donor registration and blood matching system along with +500 Blood donors** enabling efficient blood request management and coordination**. Shortlisted as a finalist in a college-level technology and app development competition** for social impact.

Auto Care Garage Management System (Full Stack Web Application)
Tech Stack: React, Node.js, Express.js, MySQL / Supabase
Created a **full-stack garage management platform** covering **vehicle registration, service tracking, inventory, billing, and service history** for **cars and bikes,** improving operational efficiency.
